

UNDERCOATING #083

Rubberized Undercoating Spray is an ideal protectant for coating fender replacements, new panels, section repairs and weld joints. Leaving a paintable surface, the spray prevents rust, deadens sound and seals out moisture quickly and easily. In addition, it resists salt corrosion.

AREAS OF USE

- Other uses for the undercoating spray include: crack sealer for concrete and asphalt driveways; gutter and flashing sealer; roof patch; planters; post and wood preserver; tree wound dressing.
