## Fast Setting Seam-n-Joint (White/Black)

### Description:

Fast Setting Seam-n-Joint is a fast setting super toolable mastic for sealing any type of interior or exterior seam or joint.

### Where to use:

Fast Setting Seam-n-Joint can be used anywhere there is a metal to metal contact.  
(Door skins, trunk seams, cowl seams, floor seams, and drip rails.)

### How to use:

1. Apply bead of sealer to area being worked.
2. Smooth out with putty stick or finger. No tooling solvent required.
3. Any type of paint can be applied after 30 minutes.

### Advantages:

1. Fast Setting won't crack or peel and always stays flexible.
2. Fast Setting skins over in about 1-2 minutes.
3. Fast Setting tools out better than competitive brands.
