

**#71005**

## **71005 BOOTH COATING**

### **PRODUCT DESCRIPTION:**

71005 Booth Coating is a fast drying liquid masking material. 71005 prevents primer, paint and various oversprays from sticking on painted surfaces. Our booth coating dries to a tack free film in 20-30 minutes and requires no special equipment to apply. 71005 can be easily rinsed off with water.

### **DIRECTIONS:**

1. Apply one wet coat with a conventional, gravity or HVLP spray gun using a 1.8 - 2.0 fluid tip, or with a brush or roller.
2. Use 35 - 45 psi with gravity gun, 40 - 50 for siphon gun and lower psi can be used with HVLP equipment.
3. 7100/7110 can be baked at 170°F without losing its masking properties.
4. One coat should dry in approximately 20 - 30 minutes at 70° F.
5. Theoretical coverage: 290 sq. ft. per gallon
6. To remove, rinse thoroughly with water. Service as needed, at least every 2-3 weeks.

### **Caution:**

1. Avoid contact with skin.
2. Use protective equipment when spraying.
4. **ALLOW SPRAY BOOTH TO COOL DOWN, IF HEATED, BEFORE APPLYING.**
